CHANNEL MAINTENANCE DREDGING

OHIO RIVER, MILES 341 AND 204

Notice is given that on or about 14 October 2013, channel maintenance dredging will commence at Greenup Locks Lower Approach, Ohio River Mile 341. Also on or about 21 October 2013 dredging will commence at Belleville Locks Lower Approach and Government Harbor, Ohio River Mile 204. Amherst Madison will be the contractor for the U.S. Army Corps of Engineers.

The contractor's floating plant will consist of the M/V MILTON, the M/V LUCEDALE, two barge mounted cranes, and 4 material barges. The M/V LUCEDALE will be in the vicinity of the dredge site and should be contacted for passing arrangements on marine channel 13. The M/V MILTON will be used to transport the material barges between the dredge site and the disposal area, and will be monitoring marine channel 13. Dredging will be performed 7 days a week, between the hours of 6:00 a.m. and 12:00 a.m. midnight and is anticipated to be completed on or about 31 October 2013.

All floating plants will be moored at the worksite during non-working hours and will be lighted according to regulations.

Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made

JAMES W. SHINER JR.
Chief, Technical Support Branch
