TOTAL OHIO RIVER CLOSURE

BELLEVILLE LOCKS AND DAM

OHIO RIVER, MILE 204.0

Notice is given that if heavy rains cause the Belleville lower gage to exceed 26.0, there will be intermittent closures of the main chamber to set bulkheads in order to pass drift. The auxiliary chamber is currently closed due to district repair fleet ongoing maintenance. Therefore, the entire river will be closed to mariners at Ohio River Mile 204.0 during periods of drift passage.

Mariners are urged to contact the lockmaster via marine radio on channel 13 for more information.
