FACILITY MAINTENANCE DREDGING

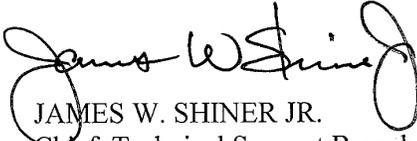

BIG SANDY RIVER, MILE 7.7

Notice is given that on or about 28 August 2014, McGinnis, Inc. will begin facility maintenance dredging operations at the Kanawha River Terminals facility along the left descending bank of the Big Sandy River, mile 7.7.

The floating plant will consist of the M/V RAIDER, one barge mounted crane, and one material barge. The M/V RAIDER will be monitoring marine channels 13 and 16. This work will be performed from 7:00 am to 11:00 pm, with an anticipated completion date of 31 August 2014. The dredge material will be offloaded along the left descending bank, Big Sandy River, mile 7.2, and placed in an upland disposal area.

During non-working hours the floating plant will be moored at the work site and lighted according to regulations.

Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

JAMES W. SHINER JR.
Chief, Technical Support Branch
