Corps Awards Contract for Dover Dam

HUNTINGTON, WV..... The U.S. Army Corps of Engineers issued a Notice to Proceed to Tab Construction Company, Inc. on a \$919,000 contract to install bar anchors at Dover Dam for interim risk reduction measures. In the Corps continuing commitment for public safety, installation of 17 three-inch diameter steel anchor bars in the existing foundation drains will begin Tuesday, December 18.

The installation of these anchors will provide increased stability of the dam until the permanent rehabilitation is completed. The permanent rehabilitation will provide a more comprehensive increase in stability of the dam. The construction contract for the dam safety assurance project is scheduled to be awarded in 2010.

Tab Construction Company is based in Canton, Ohio. Construction should be completed by summer 2008.

For additional information, you may contact Rodney Cremeans, project manager, at 304-399-5170 or the Public Affairs Office, at 304-399-5353.
