## CHANNEL EXCAVATION & DIKE CONSTRUCTION

### MARMET LOCKS & DAM

### KANAWHA RIVER, MILE 67.8

Notice is given that on or about 6 July 2007, channel excavation/dredging and dike construction activities supporting the new lock construction will commence in the lower approach and below dam areas at Marmet Locks and Dam, Kanawha River, mile 67.8.

The contractor's floating plant will consist of the M/V BUS BROWN, 1 crane barge, and one material barge. The M/V BUS BROWN will be monitoring marine channel 13 and 16. This work will be conducted Monday through Saturday, 7:00 am to 5:00 pm and is expected to be completed on or about February 11, 2008. Dredged material will be placed upland at the RC Byrd Locks and Dam upstream disposal area, Ohio River, Mile 279.2, left descending bank.

During non working hours the contractor's floating plant will be moored on site and lighted according to regulations.

Mariners are urged to exercise caution when transiting this area, after passing arrangements have been made.

A handwritten signature in black ink that reads "Arlie D. Bishop".
