CORE DRILLING/SEDIMENT SAMPLING

KANAWHA RIVER, MILE 31.1 – 46.0

Notice is given that on or about 3 November 2008, Normandeau Associates, Inc. will begin sediment sampling at mile 46.0 working downstream to mile 31.1 on the Kanawha River. Some work will be within the limits of the navigation channel.

The contractor's floating plant will consist of the surveyboat NORMANDEAU and one self-propelled sampling barge. The surveyboat NORMANDEAU will be monitoring marine channels 13 and 16. The work will be performed from 8:00 a.m. to 5:00 p.m. seven days per week. It is anticipated that the drilling will be completed on or about 5 December 2008.

During non-working hours the contractor's floating plant will be moored along the shore line, and lighted according to regulation.

Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

A handwritten signature in black ink that reads "Arlie D. Bishop".
