OPTIONAL ADDITIONAL INFORMATION SUPPORTING NJD (e.g., discussion may include information reviewed to assess potential navigation or interstate commerce connections - 1 to 3 paragraphs):

This pond was excavated in non-hydric soils with hydric inclusions and has no inlet or outlet structures. Since this pond had no connection to a surface water tributary system, it would not be considered a water of the United States. The following jurisdictional areas are present within the project boundary: two jurisdictional wetlands totaling 0.29 acres and eight streams with a combined length of 7,764 linear feet.
