AUXILIARY LOCK CHAMBER CLOSURE

BELLEVILLE LOCKS AND DAM

OHIO RIVER, MILE 203.9

Notice is given that effectively immediately, the auxiliary chamber is closed at Belleville Locks and Dam, Ohio River, mile 203.9. The closure is due to a government contractor sandblasting and painting the upstream bulkheads.

This work will be performed from the lock walls and the estimated completion date is 10 September 2006.

Navigators should contact the Lockmaster, Belleville Locks for updated information regarding the work.

If a queue develops, the auxiliary lock will reopen to avoid delays. During this closure, the main chamber will remain open for regular use.

A handwritten signature in black ink that reads "Arlie D. Bishop".

ARLIE D. BISHOP
Chief, Technical Support Branch
