## PIPELINE CROSSING

### KANAWHA RIVER, MILE 41.5

Notice is given that on or about 18 September 2006, Madison Coal and Supply Company will begin construction of a pipeline crossing the Kanawha River, mile 41.5.

The contractor's floating plant will consist of the M/V LUCEDALE, 2 crane barges, and three work barges. The M/V LUCEDALE will be monitoring marine channels 13 & 16. The work will be conducted Monday through Saturday, 7:00 am to 7:00 pm and is expected to be completed on or about 30 December 2006.

During non working hours the contractor's floating plant will be moored at the work site along the left descending bank and lighted according to regulations.

As this work will cross the channel, mariners are urged to contact the M/V LUCEDALE and make passing arrangements. Once passing arrangements are made, they should transit at their slowest safe speed to minimize wake and proceed with caution.

A handwritten signature in black ink that reads "Arlie D. Bishop".

ARLIE D. BISHOP
