- "navigable waters of the U.S." within RHA jurisdiction (as defined by 33 CFR part 329) in the review area.

- **Complete Table 1 - Required**

NOTE: If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Section 10 navigable waters list, DO NOT USE THIS FORM TO MAKE THE DETERMINATION. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Section 10 RHA navigability determination.

B. CLEAN WATER ACT (CWA) SECTION 404 DETERMINATION OF JURISDICTION: "waters of the U.S." within CWA jurisdiction (as defined by 33 CFR part 328.3) in the review area. **Check all that apply.**

 - **Complete Table 1 - Required**
 - This AJD includes a case-specific (a)(1) TNW (Section 404 navigable-in-fact) determination on a water that has not previously been designated as such. Documentation required for this case-specific (a)(1) TNW determination is attached.

Table 10. Non-Waters/Excluded Waters and Features

Paragraph (b) Excluded Feature/Water Name	Rationale for Paragraph (b) Excluded Feature/Water and Additional Discussion.
Vegetated Drainage Swale	Vegetated Drainage Swale (approximately 345 linear feet) is located in the southern portion of the site and ends within the utility corridor onsite. The vegetated drainage swale lacks a defined bed, bank and ordinary high water mark and was not flowing at the time of the site visit. The vegetated drainage swale did not exhibit stream nor wetland characteristics, did not drain wetlands and did not flow into another water. Due to exclusion under 33 CFR 328.3(b)(3)(i) Ditch Type A-Ephemeral ditch that is not a relocated tributary or excavated in a tributary, this feature is not a water of the United States.
Open Water (pond)	One open water (Pond), approximately 0.25 acre, is located in the north-central portion of the site and was constructed in uplands and does not have an inlet or outlet. Due to exclusion under 33 CFR 328.3(b)(4)(ii) Artificial, constructed lakes and ponds created in dry land such as farm and stock watering ponds, irrigation ponds, settling basins, fields flooded for rice growing, log cleaning ponds, or cooling ponds, this feature is not a water of the United States.
