MAIN CHAMBER CLOSURE

GREENUP LOCKS AND DAM

OHIO RIVER, MILE 341.0

Notice is given that on 29 March 2021, at approximately 1800 hours, the main chamber of Greenup Locks and Dam, Ohio River, mile 341.0 will be temporarily closed. This closure is due to the main chamber valve becoming inoperable with anticipated high water and ongoing rehabilitation of the culvert valves. Based on current predictions, the main chamber is anticipated to reopen on or about 4 April 2021. During the main chamber closure, the auxiliary chamber will remain open for lockages. This closure will not result in delays to the maintenance schedule of the US Army Corps of Engineers Repair Fleet.

Mariners are urged to contact the lockmaster via marine radio channel 13 for more information.
