NOTICE TO NAVIGATION INTERESTS

DATE: 01/12/2017
POC: Kent C. Browning
304-399-5239

NOTICE NUMBER: 7297
LOCAL NUMBER: 17-06
WATERWAY: KANAWHA RIVER

EFFECTIVE: 01/12/2017 00:00 thru 01/12/2017 23:59 EST

REVISION TO NOTICE TO NAVIGATION 16-32

AERIAL CROSSING REDUCED CLEARANCE

KANAWHA RIVER MP 54.9

Reference Notice to Navigation Interests 16-32, dated 21 November 2016. The aerial crossing has been raised to a surveyed elevation of 637.6 feet at 58 degrees Fahrenheit, resulting in a high temperature calculated low sag clearance of 68.3 feet above a normal pool elevation of 566.0.

For your convenience, the following is from Notice to Navigation Interests 16-32:

Notice is given that the aerial power crossings located on the Kanawha River at mile 54.9, have a vertical clearance less than that shown on the navigation charts. The vertical clearance for the aerial crossings is actually 59 feet above normal pool elevation 566.0. The US Army Corps of Engineers is actively working with the permit holder to remedy the situation.

Mariners are urged to proceed with caution, especially during high water conditions.
