**CHANNEL MAINTENANCE DREDGING**

**OHIO RIVER, MILE 353.0 - 354.5**

Notice is given that on or about 14 December 2020, Amherst Madison, contractor for the U.S. Army Corps of Engineers, will commence channel maintenance dredging on the Ohio River, miles 353.0 - 354.5. Disposal operations will take place at the permitted sites located along the left descending bank of the Ohio River, at the worksite. The nearest downstream municipal water intake is at Manchester, OH, mile 404.2.

The contractor's floating plant will consist of the M/V MILTON, M/V BUS BROWN, two barge mounted cranes, and three material barges. The M/V MILTON will be in the vicinity of the dredge site and should be contacted for passing arrangements on marine channel 13. The M/V BUS BROWN will be used to transport the material barges between the dredge site and the disposal area and will be monitoring marine channel 13. Dredging will be performed between the hours of 7:00 a.m. and 5:00 p.m. and is anticipated to be completed on or about 18 December 2020. All floating plants will be moored at the worksite during non-working hours and will be lighted according to regulations.

Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.
