MATERIAL LOADING AND UNLOADING

KANAWHA RIVER, MILE 44.8

Notice is given that on or about 24 April 2012, Kokosing Construction Company will begin construction of a temporary unloading facility located along the left descending bank of the Kanawha River, mile 44.8. This facility will be used during the construction of the Dick Henderson Highway Bridge located at Kanawha River, mile 46.1.

The contractor's floating plant will consist of the M/V CLYDSDALE, two crane barges, and one material barge. The M/V CLYDSDALE will be monitoring marine channel 13. During non-working hours, the floating plant will be moored at the bridge construction site and lighted according to regulations. This facility will be operated Monday through Saturday, from 7:00 a.m. to 5:00 p.m. and is anticipated to be completed on or about 08 November 2012.

Operations at mile 44.8 will require the contractor to temporarily moor barges on the edge of the navigation channel, extending approximately 20' into the channel. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

JAMES W. SHINER JR.
Chief, Technical Support Branch
