REVISION TO NOTICE TO NAVIGATION INTEREST 12-45

OUTFALL INSTALLATION

KANAWHA RIVER, MILE 38.6

Reference Notice to Navigation Interest 12-45, dated 17 September 2012. The new completion date is now going to be on or about 5 December 2012.

All other pertinent information remains unchanged.

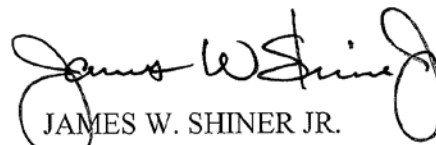

For your convenience, the following is from Notice to Navigation Interest 12-45:

Notice is given that on or about 8 October 2012, Marine Solutions, Inc. will be installing a 36" diameter outfall for American Electric Power at the John Amos Power Plant, along the left descending bank of the Kanawha River, mile 38.6.

The contractor's floating plant will consist of one barge mounted crane. There will not be a boat onsite at all times. The crane operator will be monitoring marine channels 13. Work will be conducted Monday through Friday, between the hours of 7:00 a.m. and 7:00 p.m. and is expected to be completed on or about 28 November 2012.

During non-working hours the contractor's floating plant will be moored at the work site and lighted according to regulations.

Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

JAMES W. SHINER JR.
Chief, Technical Support Branch
