CHANNEL MAINTENANCE DREDGING

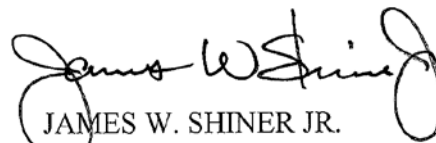

LONDON LOCKS AND DAM, KANAWHA RIVER, MILE 82.8

Notice is given that on or about 25 February 2013, Amherst Madison Inc., contractor for the U.S. Army Corps of Engineers, Huntington District, will commence maintenance dredging in the lower approach at London Locks and Dam, mile 82.8. The nearest downstream municipal intake is at Pratt, WV, on the Kanawha River Left Descending Bank, mile 81.1.

The floating plant will consist of the M/V LUCEDALE, one barge mounted crane, and two material barges. The M/V LUCEDALE will be monitoring marine channels 13 and 16. The work will be performed Monday through Friday from 7:00 a.m. to 5:00 p.m. The estimated completion date is on or about 8 March 2013. The dredged material will be disposed in an approved disposal area, located at Witcher's Island, mile 70.9, along the left descending bank.

The floating plant will be moored at the site during non-working hours and will be lighted according to regulations.

Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

JAMES W. SHINER JR.
Chief, Technical Support Branch
