FACILITY MAINTENANCE DREDGING

OHIO RIVER, MILE 404.5

Notice is given that on or about 22 September 2014, Dayton Power & Light Company, will begin facility maintenance dredging operations at their water intake and barge facility at the JM Stuart Electric Generating Station, along the right descending bank of the Ohio River, mile 404.5.

The floating plant will consist of the M/V CHRISTINE B, one barge mounted crane, four material barges, and a small hydraulic dredge. The M/V CHRISTINE B will be monitoring marine channels 10 and 16. This work will be performed from 7:00 am to 7:00 pm., 7 days a week, with an anticipated completion date of 15 December 2014. The dredge material will be placed in an upland disposal area at the work site.

During non-working hours the floating plant will be moored at the work site and lighted according to regulations.

Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

JAMES W. SHINER JR.
Chief, Technical Support Branch
