FACILITY MAINTENANCE DREDGING

OHIO RIVER, MILE 404.5

Notice is given that on or about 31 August 2015, Dayton Power & Light Company, will begin facility maintenance dredging operations at their water intake and barge facility at the JM Stuart Electric Generating Station, along the right descending bank of the Ohio River, mile 404.5.

The floating plant will consist of the M/V CHRISTINE B, one barge mounted crane, two material barges, and a small hydraulic dredge. The M/V CHRISTINE B will be monitoring marine channels 10 and 16. This work will be performed from 7:00 am to 7:00 pm., 7 days a week, with an anticipated completion date of 30 November 2015. The dredge material will be placed in an upland disposal area at the work site.

During non-working hours the floating plant will be moored at the work site and lighted according to regulations.

Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.
