NOTICE NUMBER: 6444
LOCAL NUMBER: 16-13
WATERWAY: KANAWHA RIVER

EFFECTIVE: 06/15/2016 06:30 thru 09/10/2016 16:30 EDT

LOCKWALL LADDER REPLACEMENT

LONDON LOCKS AND DAM

KANAWHA RIVER, MILE 82.8

Notice is given that on or about 15 June 2016, Amherst Madison will begin replacing the lower lockwall ladders at London Locks and Dam, Kanawha River, mile 82.8. The ladders being replaced are located on the upstream end of the lower land and river walls. This work will begin on the land chamber first, then move to the river chamber.

The contractor's floating plant will consist of the M/V TOM COOK, one barge mounted crane, and one material barge. The M/V TOM COOK will be monitoring marine channels 13 and 16. This work will be performed from 6:30 a.m. to 4:30 p.m., Monday through Thursday, with an anticipated completion date of 10 September 2016.

During working hours, one chamber will be available to mariners. During non-working hours, the contractor's floating plant will be moored onsite and the river chamber will be available unless circumstances dictate otherwise. In that event, the land chamber will be available.

Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.
