EDT

REVISION TO NTN 17-20, SHOALING CONDITIONS

WINFIELD LOCKS AND DAM

KANAWHA RIVER, MILE 31.1

Reference Notice to Navigation Interests 17-20, dated 02 June 2017. Notice is given that the lower approach of the main lock chamber at Winfield Locks and Dam, Kanawha River mile 31.1, has been dredged to the full project depth.

For your convenience, the following is from Notice to Navigation Interests 17-20:

Notice is given that lower approach channel depths have been surveyed at Winfield Locks and Dam, Kanawha River, mile 31.1. Due to low water levels and channel depths surveyed on 30 May 2017, vessel operators are encouraged to monitor lower gage readings and adjust drafts accordingly.

The most recent survey, completed 30 May 2017, can be obtained by clicking the following link:

http://www.lrh.usace.army.mil/Portals/38/Users/099/55/355/20170530_WEB.pdf?ver=2017-06-02-084819-533

Mariners are urged to contact the lockmaster via marine radio on channel 13 for more information.

An additional notice will be furnished containing dredging information for this site.
