EDT

REVISION TO NTNI 17-25

MISCELLANEOUS MOORING STRUCTURE AND BANK WORK

BIG SANDY RIVER MILE 3.8

Reference Notice to Navigation Interests 17-25, dated 3 July 2017. In addition to the floating plant originally listed, another crane flat and material barge will be onsite. This increase in floating plant will create congestion, so mariners are urged to proceed with caution after passing arrangements have been made. Furthermore, the anticipated completion date has been extended to 10 November 2017.

All other pertinent information remains the same.

For your convenience, the following is from Notice to Navigation Interests 17-25:

Notice is given that on or about 24 July 2017, CJ Mahan Construction Co., LLC will begin mooring cell repairs, dredging, dolphin installation, debris diverter construction, and miscellaneous work along the bank for the Marathon Petroleum Heavy Oil Dock facility located along the left descending bank of the Big Sandy River, mile 3.8.

The floating plant will consist of the M/V SARA C., one barge mounted crane, one deck barge, and one hopper barge. The M/V SARA C. will be monitoring marine channels 13 and 16. This work will be performed Monday through Friday from 7:00 a.m. to 5:00 p.m., however certain activities may require work to be performed 24 hours per day, 7 days per week. The anticipated completion date is 30 October 2017.

During non-working hours, the floating plant will be moored at the worksite and lighted according to regulations.

Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.
