SHOALING CONDITIONS

MARMET LOCKS AND DAM

KANAWHA RIVER, MILE 67.7

Notice is given that due to recent flooding and receding water levels on the Kanawha River, shoal conditions exist in the lower approach channel at Marmet Locks and Dam, Kanawha River, mile 67.7.

The most recent survey, completed 14 March 2019, is attached to this notice.

Mariners are urged to check the channel depth surveys, monitor lower gage readings, and contact the lockmaster via marine radio on channel 13 for more information.

Contact the Lockmaster for more information.
