

U. S. Army Corps of Engineers Weapons Registration and Safety Form

Name: _____

Address: _____

Ph. No.: _____

Affiliation (Regiment, Co., etc.): _____

Type(s) of Weapon(s): _____

I _____ agree to the following:

(Please print name)

With the U. S. Army Corps of Engineers, SAFETY IS A TOP PRIORITY. Proper period correct (mid-1863 U. S. and C. S. A. military) courtesy and behavior is encouraged at all times, but it is required in the presence of the visitors. U. S. Army Corps of Engineers (Title 36) rangers (with badges) and/or designated law enforcement officers may remove any participant from the property at any time during the event without appeal. All weapons (including rounds in cartridge boxes, caps in cap pouches; light artillery pieces and limber ammunition chests with friction primers) will be inspected prior to all programs. **U. S. Army Corps of Engineers rangers (with badges) and/or designated law enforcement officers will have the final approval of all inspections without recourse.** Any weapon and/or accoutrement with rounds and/or caps and/or light artillery piece and/or limber box that fails to pass inspection will not be allowed. Any weapon that does not have the proper seal of approval (provided by U. S. Army Corps of Engineers) will not be allowed. Any arms bearing and/or firing soldier and/or cannoneer may be required to perform accepted drill procedure (either individually and/or as a company/battery using Hardee's Tactics and/or Gilliam's Tactics and/or U. S. Artillery Drill) before being allowed on-the-field. This weapons registration and safety form must be completed and approved prior to taking the field and it gives permission to discharge approved weapons with gun powder (**black powder charges only—no projectiles**). Cartridges will be limited to 60 grains of gunpowder (black powder) for the .577 or .58 cal. weapons; 70 grains for .69 cal. weapons; 25 grains for .44 cal. Colt Army (or comparable pistol) (no toilet sealant, comparable sealant, and/or wonder wads are allowed). Artillery rounds will be limited to 4 oz. of gunpowder (black powder) per shot for Mountain Howitzers and 6 oz. of gunpowder (black powder) per shot for 6 pounders, 12 pounders, and 3" Ordinance Rifles. No person under the age of 16 is allowed to carry a weapon (loaded or unloaded) at any time. No visitor is to touch a weapon (loaded or unloaded) at any time. This agreement is valid at the Bulltown Battlefield Historic Area for the interpretive programs on Oct. 10, 11, and 12, 2014 only.

I have fully read and understand the agreement:
